## Topcoat 501 - Piano Black

### Darkest Perfection

A black color gives a yacht a very special and highly exclusive look. Black, as a surface, has a particularly impressive effect. With the development of the next generation of Blacks we have relied on trends from the automotive industry.

Piano Black is a high-gloss black color, currently very popular in automotive, telecommunications and computers. It is known as the deepest, darkest, smoothest finish of comparison. Especially on larger areas and complicated geometries low film build may appear during the application. Therefore the goal was to develop a black with better hiding power.

**The new color ALEXSEAL® Piano Black of Premium Topcoat 501 comes with bold appearance and process optimized application.**

A breathtaking DOI is achieved with the finish, whereby the paint can also be used for Non Skid applications at the same time. Piano Black equals Super Jet Black in color but gives a deeper black impression which combines efficiency and elegance.

### TRADE NAMES

ALEXSEAL Premium Topcoat 501 T9240 Piano Black  
(Mixing ratio 1:1 by volume)

### Your Benefits

- Very good hiding power
